

# Petrogenium. Academy

## Upstream (EOR & Water Flooding)

### Principal Aspects of Water Flooding

Consultant / Trainer

**Andrew Parker**

#### **Petrogenium (in collaboration with EPTS) Principal Aspects of Water Flooding**

**course** is designed to provide valuable insights into the oil recovery technique of waterflooding. Key themes, which will be discussed during the training course include the application, requirements and economics.

---

#### **Participants**

This **Petrogenium.** course is designed for those who need overview knowledge, such as Managers or Non-technical staff.

---

#### **Learning Objectives**

Participants will delve into technologies, processes involved, and obtain a broad understanding of the important role that each profession plays in a successful waterflood. Attendees will be shown relevant and real examples to demonstrate the components covered during this course. The key learning objective is for the participants to obtain fundamental knowledge of the waterflooding process.

# Programme
